

*Remembering When*TM

A FIRE AND FALL PREVENTION PROGRAM FOR OLDER ADULTS

*Remembering When*TM is a comprehensive fire and fall prevention program for older adults. The program has adopted a nostalgia theme that includes sixteen key Fire and sixteen key Fall Safety messages designed to be presented through discussion, trivia games, and handouts.

The program has been implemented throughout North America and many communities in New Hampshire to help thousands of older adults learn strategies to help them live safely at home for as long as possible. Fires and falls happen but many are preventable!
